About me

Hello! I'm Alex, Full Stack Web Developer. I am dedicated to creating dynamic web applications, easy to use, and adaptable for any device. I am constantly training myself. I am methodical, organized, and proactive. Although I have the ability to work independently, I can add a lot of value to the work team thanks to my ability to establish interpersonal relationships and good communication.

- Nationality: **American.**
- Current residence: **Bs.As. Argentina.**
- Availability to be relocated: **Open to be relocated.**

Experience

- Freelance Web Developer | co.work RH Consultant (May 2023)

- Project's duration : 2 weeks
- I was responsible for the planning, development, production, and maintenance of the website.
- Implemented technologies: HTML, CSS, Bootstrap, Typescript, Angular, Firebase.
- It was a challenging project where I creatively tackled various obstacles, effectively enhancing the value and reputation of my client by facilitating seamless communication between users and the consulting firm.
